Muhammad Rouhan Faisal

BS Computer Science | National University of Sciences and Technology (NUST)
Lahore, Pakistan | +923019068072 | rouhan.faisal1@gmail.com

PROFESSIONAL PROFILE

A technology enthusiast with experience in web development, artificial intelligence, and deep learning. Proficient in MERN, Next.js, and Flask for building web applications. Currently expanding expertise in cloud computing by learning AWS and pursuing the AWS Solutions Architect certification. Passionate about leveraging AI and scalable cloud solutions to develop innovative and efficient applications.

EDUCATION

- BS in Computer Science School of Electrical Engineering and Computer Science , 3.53
- BSCS School of Electrical Engineering and Computer Science , 3.53 (2025)

WORK & INTERNSHIP EXPERIENCE

Cosmotech Technologies

01-Jul-2024 - 01-Sep-2024

- Assisted a 4-person team in developing a web application that simplifies the tender/procurement process, potentially reducing processing time by 60%.
- Contributed to the development of the front-end user interface using ReactJS, ensuring a user-friendly and intuitive experience for tender participants.

CHKK

01-Dec-2024 - 30-Apr-2025

- Assisting in designing scalable and efficient system architectures, gaining hands-on experience in cloud infrastructure and solution design.
- Learning about Kubernetes for container orchestration, including deployment strategies, service management, and cluster scaling.
- Collaborating with the team to ana

PROJECTS

CaseCobra

- Developed a full-stack web application that allows users to browse and order pre-designed mobile cases or upload their own images to create custom cases.
- Implemented a seamless user experience with Next.js for fast and responsive UI, ensuring smooth navigation and efficient case customization.
- Integra

Chat Application

- Developed a real-time chat application using the MERN stack (MongoDB, Express, React, Node.js) to facilitate communication for up to 100 concurrent users.
- Implemented functionalities for 100 users to engage in seamless direct messaging and group chats, fostering real-time collaboration.
- Leveraged Socke

Research on FusionRAG – NUST Alpha at RIRAG 2025

- Contributed to the development of FusionRAG, a Retrieval-Augmented Generation (RAG) system designed to enhance regulatory document retrieval and question answering.
- Integrated OpenAI embeddings, BM25, FAISS, and a custom rank fusion strategy to combine lexical and semantic retrieval for improved accuracy and

TECHNICAL SKILLS

- Python socket programming
- Big data analytics
- Nodejs
- Flask
- Mongodb (database)
- Express, nodejs
- Reactjs
- Poetry

SOFT SKILLS

- Team workship
- Analytical thinking
- Teamwork, flexibility
- Team management
- Leadership and communication
- Flexibility and adaptability
- Effective leadership and manag
