Iqra Rasool

BS Computer Science | National University of Sciences and Technology (NUST)
20 East Scheme No.2, Farid town, Sahiwal, Pakistan | +923146914161 | iqrarasool45@gmail.com

PROFESSIONAL PROFILE

A dedicated and motivated computer science student with a strong foundation in database design, frontend web application development, Python and C++. Supportive and enthusiastic team player dedicated to apply skills and knowledge to real-world projects and continue to grow as a computer scientist.

EDUCATION

- BS in Computer Science School of Electrical Engineering and Computer Science , 3.06
- BS Computer Science National University of Science and Technology , 3.06/4.00 (2025)
- Higher Secondary Diploma (Pre-Eng) The Educators College , 1089/1100 (2021)
- Secondary Diploma Divisional Public School , 1066/1100 (2019)

WORK & INTERNSHIP EXPERIENCE

Freelancer

01-Dec-2019 - 03-Mar-2025

- Maintaining database for clients using MySQL and Oracle.
- Designing logos for clients using Canva.
- Designing and Building pages using HTML and CSS.
- Apply expertise in Microsoft Office applications to create Word documents, built spreadsheets, prepare PowerPoint slides for clients.
- Research and write on

United Bank Limited (Customer Services and Sales Intern)

12-Jun-2024 - 23-Jul-2024

- Got a chance to get experience of sales and customer services department at United Bank Limited (UBL) Pakistan.
- Worked closely for people, understanding their concerns and communicating with them.

PROJECTS

DROWSINESS DETECTION SYSTEM (FYP)

- Developing a system to detect drowsiness of a person on the basis of eye closure, yawning and head tilting.
- Model is trained to detect faces from video stream using YOLOv8 model and then these detected faces are sent to 68-points Face Landmark Detection algorithm of Dlib for further calculations of EAR, MAR a

SALARY MANAGEMENT SYSTEM

- Developed a small level system to manage the salaries of employees using JavaScript, Node.js, MySQL and sequelizer to connect.
- Main features include adding and removing employees by admin and managing their salaries according to their posts, annual increments, bonuses and reductions.

SEARCH ENGINE

- Developed a search engine using various sorting algorithms and tree structures for effective searching.

HomeDoc WEB APPLICATION

- A web application where you can look for doctors and paramedics in your area and call them for your services.
- The frontend is using react, HTML, CSS, JavaScript and Bootstrap.
- Backend is using Node.js and MySQL for database, connected using sockets.
- Map is also used to find paramedics in your area.

TECHNICAL SKILLS

- Agile and waterfall methods
- Distributed systems
- Python socket programming
- Big data analytics
- Web development frameworks
- Operating systems
- Game designing on unity
- Cryptanalysis

SOFT SKILLS

- Strategic communications
- Korean language (beginner)
- Team workship
- Analytical thinking
- Coding
- Logical and conceptual learner
- Strong work ethics
- Managing multiple priorities
