Abdullah Saim

BS Computer Science | National University of Sciences and Technology (NUST)
219-C MILITARY, ACCOUNTS CO-OPERATIVE, HOUSING SOCIETY, COLLEGE, ROAD, Lahore, Pakistan | +923008438161 | abdullah.saim.as@gmail.com

PROFESSIONAL PROFILE

Motivated computer science professional with hands-on experience in machine learning, AI, and web development. Proven track record in developing AI-powered applications, including deep learning projects for video retrieval, sign language recognition, and distributed systems. Skilled in computer vision techniques, natural language processing, and full-stack development with React, Flask, and the MERN stack. Seeking opportunities in research and roles focused on advancing innovations in Computer Vision, AI, and web technologies, with a passion for leveraging cutting-edge solutions to solve real-world challenges

EDUCATION

- BS in Computer Science School of Electrical Engineering and Computer Science , 3.83
- Matric / O levels , (2019)
- Intermediate / A levels , (2021)
- FSc. Pre Engineering Punjab Group of Colleges , 1053/1100 (2021)
- Matriculation The Punjab School , 1065/1100 (2019)

WORK & INTERNSHIP EXPERIENCE

Pakistan Railways (NITB)

22-Aug-2022 - 12-Sep-2022

- Consultant Quality Assurance Assessment Team (NUST) QA Testing of "Safar Saheli" app for Pakistan Railways NUSTIAN USA International Summer Research Internship Program (01-Jul-2024 - 01-Oct-2024) Collaborated with Prof.
- Zubair Shafique from UC Davis on the project “A Graph-based ML Approach to Detecting JavaScript-based Online Tracking.” Conducted in-depth research on cookies, analyzing their functionality and role in online privacy.
- Developed a machine learning model to categorize cookies based on t

PROJECTS

Shuttle Service App

- Desktop Application in Java for Shuttle Service of NUST

Water Management System

- Monitors the water level of Tank and keep updated on Web/Mobile App

Time Table Generator

- Generates Timetable in excel sheet and gives the available slots for makeup classes

JanWhere - React App

- JanWhere is a web application that uses the MERN stack and Google Maps API to allow users to explore and conserve indigenous animal species in Pakistan.
- Users can locate and mark wildlife sightings on an interactive map, upload pictures of their encounters, and learn more about the

animals and their conservat

-

TECHNICAL SKILLS

- Agile and waterfall methods
- Android
- Python/java/c++/octave
- Kali linux
- Micro-controllers(pic, arduino)
- Azure cloud platform
- C, c++, java and python
- Web development

SOFT SKILLS

- Team workship
- Filmora
- Analytical thinking
- Self-management skills
- Teamwork, flexibility
- Team management skills
- Group work
- Problem solving skills
